1.1 Download

The Papyrus Components guide could be downloaded as a pdf [here](#)

1.2 Papyrus Components

1.2.1 Context

The Papyrus Components project aims at providing a shared developer environment to help to integrate additional Papyrus Component.

1.3 Standard Operating Procedure

- [SOP Release](#)

2 SOP Project Release

2.1 Context

How to make the release of the Papyrus Components projects?

2.2 How to?

2.2.1 Pre-requisite

- Create a ticket for the release [Components][release] X.Y.Z
- Ensure the main hudson job are green <https://hudson.eclipse.org/papyrus/view/Components/job/papyrus-components/>

2.2.2 Actions

- Upgrade the main pom version and submodule pom version from SNAPSHOT to standard
- Add some information in the src/changes/changes.xml
- Push this to a Gerrit, review it, merge it
- Then run the release job <https://hudson.eclipse.org/papyrus/view/Components/job/papyrus-components-deploy-nexus/>
- This should deploy the artifacts to Nexus and also tag the scm and execute the web job <https://hudson.eclipse.org/papyrus/view/Components/job/papyrus-components-deploy-website/>
- Copy paste the staging web site into the papyrus components web site
- Update the web site index.html
- Rechange the pom version to a snapshot version
- Push the patch and merge it

2.2.3 Post-Actions

- Inform papyrus Components that there is a new release of the project
- They should test it
